**GOLD SAMPLING AND MASS BALANCING COURSE**

**Perth, December 6-8, 2006**

**PRESENTERS**

- Stephane Brochot, Caspeo
- Alan Bax, Ozmet/Gold Technology Group, Murdoch University

**COURSE CONTENT**

The complete 3-day course will provide attendees with an understanding of the fundamentals and practical applications involved in gold sampling and mass balancing using Echant and BILCO software. The first day will cover gold sampling and the remaining two days will cover mass balancing. Participants will have the opportunity to discuss and work through problems specific to their own site/application. A one month software license (Echant and BILCO) is included with each registration.

**WHO SHOULD ATTEND**

The courses are designed to provide metallurgists with the knowledge and software tools to determine the sampling errors associated with different sampling protocols and calculate reconciled (coherent) mass balances for laboratory testwork, plant surveys and routine metallurgical accounting. Plant metallurgists, senior metallurgists, consultants and design engineers new to, or already working in, the gold industry who wish to upgrade or renew their knowledge in gold sampling and mass balancing.

**COST**

Subscription costs are:  
- Gold Sampling Course (1 day), $770* inc GST,  
- Mass Balancing Course (2 days), $1500* inc GST,  
- Gold Sampling and Mass Balancing (3 days), $2100* inc GST.

* A 10% discount is offered for participants whose companies are sponsors of the AMIRA Project P420C – Gold Processing Technology.

The cost includes a one month software license (Echant and BILCO), comprehensive set of notes and lunch, morning and afternoon tea on each day.

**LOCATION AND TIME**

The course will be held at the New Horizons Training Centre, Level 6, 5 Mill Street, Perth WA, from Wednesday to Friday, December 6-8, commencing at 8.30 am and finishing at 5.00 pm on each day.
